EDUCATION

Stony Brook University (SUNY SB) — Stony Brook, New York
M.S. in Computer Science — *Aug 2019 - Expected Dec 2020*
Courses: *Distributed Systems, Analysis of Algorithms, Data Science, Human Computer Interaction*

Government College of Engineering (GECA) — Aurangabad, India
B.E. in Computer Science and Engineering; GPA: 8.345/10 (Top 10% in a class of 72) — *July 2013 - June 2017*

SKILLS

- **Languages**: *Proficient* - Java, C, Typescript, Go, HTML / CSS. *Prior Experience* - C#, Python, PHP, SQL, Shell, JavaScript
- **Tools and Frameworks**: Angular, Spring Framework, Android, Docker, Java Message Service, MapReduce, GIT, JIRA, Bamboo, Matlab, Pandas, Matplotlib, JSP, ASP .Net, OpenMP, CUDA

WORK EXPERIENCE

Principal (part of Principal Financial Group, Iowa) — Pune, India
Software Development Analyst — *July 2017 - August 2019*

- Involved in the development of an in-house OCR Document and Data Capture tool as a replacement to IBM's DataCap, potentially saving $500,000 per year in licensing costs
- Revamped Individual/Group Insurance Policy web-app using Angular 5 and Bootstrap. Provided dashboard view to help agents track their data. Secured REST API endpoints by integrating OAuth2 security framework
- Saved a total of 150 working hours every 2-week sprint by implementing a Mulesoft based solution to synchronize Salesforce cloud DB with on-premise DB2 LUW database
- Improved team efficiency by 15% by automating Git branch cleanup task using Selenium API + shell scripting
- Implemented fine-grained access control to secure data views of the enterprise-wide MDM tool
- Used Google Web Speech API and rule-based ML to enable management of JIRA tickets through voice
- Improved CI/CD pipeline and reduced go-live time up to 30% by integrating code analyzer tools like SONAR and HP Fortify with Bamboo build plans. Wrote JUnit tests and followed Test Driven Development approach attaining 100% code coverage in some modules
- Trained six interns on domain knowledge as well as Agile practices, Git, Angular and Bootstrap Framework

KEY PROJECTS

- **Distributed MapReduce**: Implemented a fault-tolerant MapReduce scheduler in Go (SUNY SB, Aug '19)
- **Spoiler Blocker Chrome Plugin**: Leveraged TMDb API to block (blur-out) posts on Facebook filled with movie spoilers (April '19)
- **Simple DB**: Implemented a basic clone of SQLite which uses B Tree and B+ Tree as Index and Page file nodes (Jan '19)
- **Live Twitter Sentiment App**: Experimented with NLTK, Tweepy and Pandas to provide a live DASH graph to plot tweeps' sentiment against input keywords. Compared VADER and TextBlob approach reaching 83% accuracy (Jan '19)
- **Remote File Security System**: Used inter-platform IPC to encrypt/decrypt and manage user's files on a shared computer via an Android app (GECA, 2016-17)
- **Coding Contest Platform**: Developed a LAMP-stack based programming contest platform that was able to handle 500+ users simultaneously (GECA, 2016)

ACHIEVEMENTS & EXTRACURRICULAR

- **All Staff Award, Principal**: for efficiently managing the dual role of a Developer & Business Analyst (March '19)
- **Rising Star Award, Principal**: for delivering 2.2x of expected in Q3 & Q4 of 2017, amid 500+ employees (May '18)
- **Project Of The Year, Principal**: awarded a total cash prize of INR 55000 for 'Aatmanirbhar', a project that enabled 180+ deserving underprivileged graduates with IT jobs (Nov '18)
- **Winner** of SEED Maha IT Idol (news link), a state level coding contest against 75000+ competitors (April '16)
- **Finalist** in TCS Testimony, a national level 'quality assurance automation' contest in a pool of 85,000+ others (July '16)
- **Winner** of CodeKing (2015), a state level coding competition by DIEMS, Aurangabad against 3000+ entrants (Oct '15)
- **Finalist** in 'Manifest', a website development hackathon organized by IIT, Bombay (Jan '15)
